Sir:

In reply to the Office Action of May 6, 2002 in the above-identified application,
please amend the application and consider the remarks as follows:

IN THE CLAIMS

Please amend claim 1 as follows:

D1
1. (Amended) Laser-markable paper and board products wherein the paper comprises (as absorber material,) an inorganic platelet-form substrate having a homogeneous composition with particle size distribution of 1 μ m to 60 μ m and the amount of said absorber material is 1% to 5% by weight based on the body of the paper.

Please add the following new claim:

D2
--15. Laser-markable paper and board products wherein the paper comprises, as absorber material, an inorganic platelet-form substrate having a homogeneous composition throughout the body of the paper with particle size distribution of 1 μ m to 60 μ m and the amount of said absorber material is 1% to 5% by weight based on the body of the paper. --
